Matthew Luk - Full-Stack Developer

(415) 640-4293 | Daly City, CA | [email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio Website](#)

Summary:
- I'm a full-stack developer with experience as an IT Supply Chain Technician working at Uber. I have learned front-end programming as well as Python and MERN. My main motivator towards moving into a career as a full time developer is my passion for learning new things and challenging myself further to become a better person than I was yesterday. Coding has always interested me because I saw it as a way for me to apply my critical thinking and problem-solving skills to the test. My goal is to find a role where I can develop my skills further and learn as much as I can.

Technical Projects:
- Solo Project - Youtube Clone: [GitHub - Solo Project](#) - https://ml-youtube.netlify.app
- Group Project: [GitHub - Group Project](#)
    - Created a flask app where users can post and buy items from a store similar to eBay or Mercari. I mostly focused on the backend as well as facilitated and helped with merge conflicts.

Technical Skills:
- Languages: HTML, CSS, JavaScript, Python, SQL, NoSQL
- Frameworks/Libraries: Flask, Express, React, Bootstrap, Node.js, Mongoose, APIs
- Databases: MySQL, MongoDB

Experience:
Milestone Technologies @ Uber Technologies, Inc.
IT Supply Chain Technician / January 2022 - Present
- Handling replacement and new hire asset requests along with asset retrieval logistics which included asset management and following up with terminated users in a timely manner to meet our SLA and KPI requirements for Uber.

Milestone Technologies / Astreya Partners @ Meta
IT Flex Technician / October 2019 - January 2022
- Worked as an IT flex technician in multiple departments. This gave me the opportunity to learn about every department and the tasks that were completed so I could offer my assistance when needed in order to meet deadlines and maintain our SLA. Some duties included provisioning and troubleshooting cellular devices and laptops for end users, shipping assets domestically and internationally, assisting with inventory management, and working closely with new hire orientation classes.

Warby Parker
Licensed Optician / March 2019 - October 2019
- Worked closely with an optical team and optometrists to provide clientele with adjustments and repairs for their glasses, answering optical questions and trouble shooting glasses.

Education:
Coding Dojo
- Software Developer / Date of Graduation: November 2022

San Francisco State University
- B.A. Family and Consumer Science with an emphasis in Nutrition / Date of Graduation: Spring 2018
